- Kids can play with the village kids and learn different traditions in their homes.
- Sri Lankan villages are filled with happiness, community work and ingenuity. Witness true hospitality in this Sri Lankan village.

### **Quick Facts**

- Availability - Throughout the year
- Preferred Time - Morning
- Duration - 7 Hrs ( Including transportation )
- Meeting Point - Polwatta Eco Lodge

## Tour in brief

- The tour starts with a one hour drive on the scenic and well carpeted Kandy - Mahiyangana road. This ancient village, established in the 14th century by the king of Kurunegala, has no proper road access which allows it to retain its old charm - Water Buffaloes can still be found trudging in beautiful rice-fields. You will see many ancient irrigation systems and methods being used till this day.
- The trek begins with a school visit where guests have the opportunity to give children gifts such as pens and books. The walk will take you to a different part of the village, along rice-fields and vegetable plots. Stop for a session of “fish-therapy” in the river, where you put your feet in the water and let hundreds of fish give you a very peculiar, yet satisfying, foot massage. You will return to the Lodge after an hour’s drive on the same scenic road. The experience will end after having lunch

## Important

- Suitable casual clothing
- All electronic devices should be securely carried

## Included in the price

- English-speaking guide
- Lunch and refreshments
- Bottled-water
- All applicable government taxes

## Exclusions

- Transportation to the meeting point
